

KIDS & SCHOOLS

Sometimes, it is safer if someone else protects your kids.

That's why schools close to the Umatilla Chemical Depot have plans to keep their students safe in the event of an accident.

Your kids will be safe.

The first thing they'll want to know is that you're safe too.

Know the emergency plan at your child's school.

And do your part to be prepared.

For more information, call now:

Your child's school has a plan. Don't you think you should know what it is?
